

THE BEAGLE CLUB OF QUEENSLAND INCORPORATED

Founded 1993

Affiliated with The Canine Control Council (Qld)

BEAGLE ADOPTION INFORMATION

The Beagle whose details are below is ready for adoption through the Beagle Club of Queensland Inc. rehoming service.

BEAGLE DETAILS

Name: Phoebe

Sex: Female

Age: 7

Cost of Adoption: \$150.00

The cost of adoption covers the cost of the Beagle; desexing; vaccination; worming; microchip transfers; and, where applicable, pedigree registration transfers. The Beagle may also come with items from the previous owner such as bedding, toys, collar and lead.

REASON THE BEAGLE WAS PLACED FOR REHOMING

Owner was diagnosed with personal health issues which means she needs to move back to Scotland to seek the support of family.

All Beagles placed for adoption through the Beagle Club of Queensland Inc. rehoming service are desexed, vaccinated, wormed and microchipped, as well as having had a recent veterinary inspection. They have also had a behaviour assessment with an approved canine behaviour trainer.

The following information relates to the medical condition and requirements, and the outcomes of the behaviour assessment undertaken on the Beagle.

CURRENT KNOWN MEDICAL CONDITION

SUMMARY OF BEHAVIOUR ASSESSMENT FROM BEHAVIOUR REPORT

Phoebe bonds well to humans and other dogs. Even though she can sometimes think she is the little boss, she plays and bonds well to the other dogs she currently lives with. As she has lived with Buddy her whole life, they will be rehomed together.

If you are interested in adopting this Beagle, or would like to find out more information, please email the Beagle Club of Queensland Inc. rehoming service at rehome@beagleclubqld.org.
